

## Join us for our ISO 9001:2008 Internal Auditing Course!

In just two days, you'll gain the knowledge and skills you need to audit your quality system! We'll be talking about auditing principles and process auditing techniques, as well as reviewing the ISO 9001:2008 standard itself.

The auditing methods taught in this course are based on the ISO guidelines for auditing: ISO 19011. You'll even get to practice your new process-auditing skills by role plays involving real-life case studies, and at the end of the second day, you'll receive a course certificate.

### Agenda:

#### Day One

- ISO overview
- Audit principles
- ISO 9001:2008 Standard requirements

#### Day Two

- Process auditing
- Role playing
- Corrective action and preventive actions
- Reporting effectively on auditing results
