Green Generalist Online 

Green Generalist Online Training

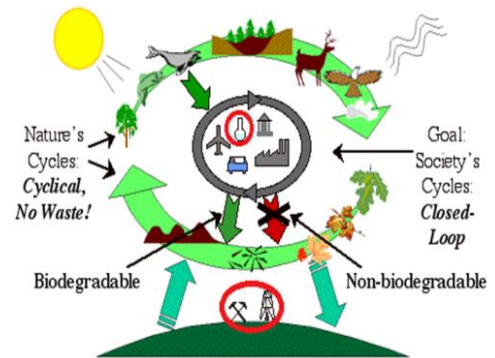

Learn green concepts and the components of sustainability from your place, at your own pace.
Appropriate for the entire workforce

Purdue University's Technical Assistance Program (TAP) is now offering online Green training. The **Green Generalist Online** workshop is an interactive and educational online course that provides awareness of the many topics and issues of sustainability. Now, you can learn how to apply environmentally friendly practices in the workplace... on your schedule.

Learn general awareness on:

- What is "Green"?
- Sustainability and Global Conditions
- Material & Solid Waste Management
- Energy Management
- Chemical Waste Generation / Green Chemistry
- Climate / Air Emissions Management
- Supply Water / Wastewater Management
- Environmental Business Management

The **Green Generalist Online** course is comprised of seven sections, seven tests, and three interactive simulations that embed the concepts of sustainability through example. The course takes up to four hours to complete and your account will be active for six months from the date you register.
